Forum I:

How can we strengthen women economic empowerment (WEE) in Greater Toledo?

The Women's Empowerment Principles can offer practical guidance to businesses and the private sector on how to empower women in the workplace, marketplace, and community. Developed through a partnership between UN Women and the United Nations Global Compact, the Principles are designed to support companies in reviewing existing policies and practices—or establishing new ones—to realize women's empowerment. These principles help strengthen WEE.

In addition, learn the new initiatives project lead by Toledo's UN Women's Empower Women Champion for Change and partners - The Hub of Greater Toledo. This initiative can help with VISIBILITY which is the most powerful tools for educating and empowering the community about all the amazing options that exist in the Greater Toledo area.
